Tech Funding

Funding the Technology Sector

With the Government placing high-growth innovative technology firms at the heart of their economic growth plans post-Brexit and post-pandemic, the importance of the sector and the opportunities for technology businesses have never been greater.

Technology start-ups and scale-ups need funding to turn their ambitions into reality and protect their interests. Understanding the options available and the right funding to pursue for your business, will ensure that you get the right investment to help you succeed.

Advising start-ups, high-growth technology businesses and investors, we are experts at what we do. We provide the specialist advice that you need on the range of funding options, providing commercial and practical support to help secure funding for your business. Whether you seek angel, venture capital, private equity investment, public or semi-public funding, we are here to guide you through the process.

How we can help you

Venture Capital/Private Funding

We advise on the full range of private funding arrangements for the high-growth technology sector. Supporting and working with a range of angel, venture capital and private equity funders, we also have an extensive network within the sector that we can leverage to your benefit.

Public and Semi-Public Funding

We stay up-to-date with all public and semi-public sources, ensuring you have the latest options available to you. Guiding you through the process, we advise on your applications and all commercial considerations you need to understand. We have key relationships with many of the funding bodies that mean we are connected and on the money with these services of funding.

Innovation Protection

Innovation is core to many high-growth technology businesses and protecting their intellectual property is essential to their MVP and ongoing value-proposition. We advise on all aspects of intellectual property protection as well as the funding options to help support this advice and protection.

Compliance with Regulations

As technology solutions are developing in highly regulated markets, technology businesses need to understand the compliance requirements they must adhere to. We provide the advice you need to comply with relevant regulations and develop robust business practices

Our track record

- Venture capital investment into a market-leading data-enabled healthtech solution for clinical trial design and management.
- Advising a video production platform through angel and Private Equity funding rounds.
- Series A Venture capital investment into leading EdTech business.
- Private equity investment into a provider of compliance technology solutions for property managers.
- Multiple successful Future.
